## Newkind Conference Media Passes Available

Academics, entrepreneurs, and activists are meeting for the 3rd annual Newkind Conference in Tasmania on 19th-24th February 2019.

Newkind 2019 brings presenters from around the country together in a zero-waste, solar-powered format designed to empower young changemakers and social entrepreneurs.

Held for the first time at the Falls Festival site, in Marion Bay, Tasmania, the speakers lineup includes representatives from the Bob Brown Foundation, Sea Shepard, Amnesty International, Local Futures, Sustainability Australia and the Australia Youth Climate Coalition.

Newkind has grown in popularity and attendance, with participants together and individually, preparing for full systems change and activism efforts, recharged and inspired by this annual gathering.

Conference topics include economic justice, gender equality, decolonisation of the arts, climate change, participatory democracy, education and a host of other related themes, which presenters and participants will explore in discussion panels, facilitated debriefs, 1-on-1 mentorship sessions and keynote lectures.

Event Director, Erfan Daliri said, "The purpose of the conference is to empower young people to address issues of social justice." He adds, "Young people really DO want to make a positive difference, and the rapid growth of this event shows how keen they are to create a better world."

Media Passes are available. [Apply Here](#). All hospitality, ground transfers and onsite accommodation provided for media personnel. For interviews with presenters or the event director please email Seb Berry on [promotions@newkindfestival.com](mailto:promotions@newkindfestival.com) or call 0402082753.

Venue: Falls Festival Site, Marion Bay, Tasmania

Dates: 19th to 24th February 2019
